GLOW PATH
PAVERS

2023
PRODUCT
DATA

Glow Path Pavers™, the only patented, self-illuminating brick pavers, are now in production.

Glow Path Pavers are manufactured to meet and exceed North American standards as set by both ASTM International and the CSA Group.

These unique pavers are produced using the finest, cutting-edge materials in facilities throughout North America. They feature consistent color, well-dispersed Glow Stone placement, and a range of paver sizes. Our exceptional attention to detail and the quality construction of our pavers delivers unwavering performance and a consistently superior appearance.

Glow Path Pavers truly are a reflection of all of our years of industry experience and our knowledge of hardscape products.

Our patented manufacturing methods embed the Glow Stone aggregate deep into the paver surface, ensuring a permanent bond that can't be dislodged by surface traffic or freeze-thaw cycles.

Glow Path Pavers attractive textured surface is also highly resistant to deicing salt, chlorine and mild acids, and is unaffected by gasoline or oil or spills.

Advancements in technology provide an enriched surface with high-performance glow stones bringing brick paver aesthetics and glow stone performance to the next level with **Glow Path Pavers**.

Glow Path Paver Cross Section

Proprietary Photoluminescent Aggregate

Face Mix

Fine aggregates and dense concrete mix create a smooth, durable surface.

Base Mix

Larger aggregates give the paver high compressive strength

Glow Path Paver Technology

Glow Path Pavers™ are a revolutionary new line of products that harnesses the sun's solar energy to create a subtle, ambient glow for 6 to 8 hours. Our patented process infuses non-toxic photoluminescent aggregates into the surface of our pavers creating a unique effect that is eco-friendly and long-lasting.

The **Glow Path Pavers™** warm subtle glow is the result of an amazing proprietary development process that has been tested for millions of charge-discharge cycles without failure.

Applications for our unique pavers are limited only by your imagination. They safely, securely and economically illuminate pedestrian walkways, public pathways, poolside recreation areas, driveways, or curbs. Unlike other illuminated paver options, Our Pavers work without wires, bulbs, or electricity, and require no maintenance other than conventional cleaning. Anything that can be done with paving stones can be done with **Glow Path Pavers™**.

Nighttime will never look the same!

Glow Path Steps ensure a secure entry to your home or business, providing peace of mind. These steps have a self-illuminating feature similar to our ambient glowing pavers, allowing for easy navigation up and down the stairs without relying on electricity. This added benefit boosts confidence for you and your visitors during nighttime use.

Glow Path Steps are the perfect solution for infrequently used areas or places where access to electricity is limited. These steps incorporate our patented Glow Stone aggregates, which emit a subtle glow to clearly mark each step in dark or hard-to-reach locations. Similar to our popular **Glow Path Pavers™**, these steps are infused with Glow Stone technology to provide reliable illumination and enhance nighttime navigation with ease.

GLOW PATH PAVERS

COMING SOON!

Glow Path Retaining Wall System

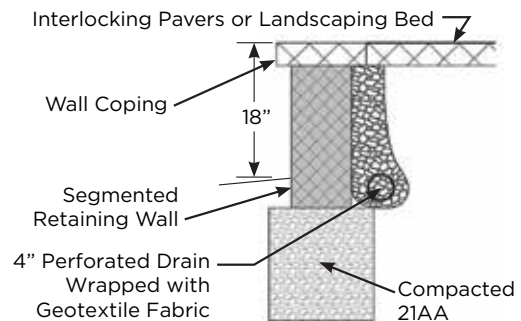

The **Glow Path Retaining Wall System** will take your vertical design to the limits of your imagination. You'll have a myriad of options for constructing a wall system that offers a simple, durable, and attractive design – enhanced with a subtle, ambient glow.

Use our **Glow Path Retaining Wall System** as an accent to your landscaping or, as a full wall that makes a statement. The patented wall unit design is ideal for many different applications: flowerbeds and garden walls, outdoor living spaces, fire features, grill islands and much more.

The subtle ambient glow of Glow Path Glow Stone aggregates will safely offer a mood-enhancing addition to your designs, without the need to work with electricity, bulbs, wires, or the constant maintenance required.

Use our system to provide a perimeter accent to walkways, driveways, patios. Public common areas, city centers, public parks and pathway can all benefit from the addition of **Glow Path Retaining Wall System**. They are especially valuable in enhancing safe passage for children, the elderly, and disabled after dark.

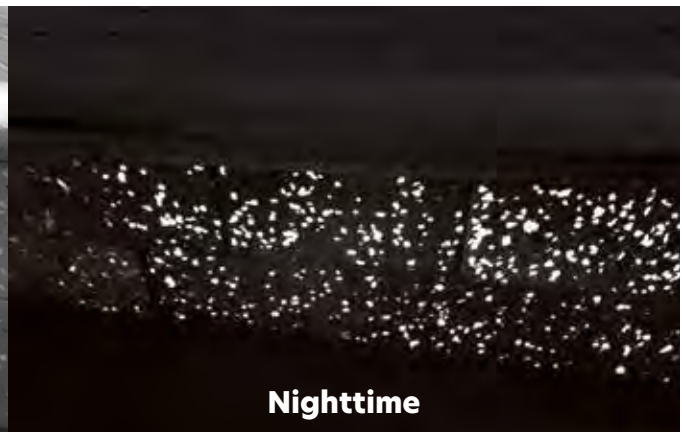

Retaining Wall Section

**Every great landscape design needs a
Glow Path Retaining Wall System to help define it.**
